Biography

Frank is of counsel at McCauley Lyman LLC, a boutique renewable energy firm. Through a strategic affiliation between the firms, Frank and other McCauley Lyman members serve Barclay Damon clients across the country as renewable energy counsel.

He primarily focuses on representing developers, offtakers, project landlords, and financing parties in all facets of solar project development. Frank advises on all energy-project-related contracts, including engineering and construction, operations and maintenance, land acquisition, fuel supply and transportation, power and billing credit sales, thermal-energy sales, and financing. He also handles company organization, governance, and regulation; sales and acquisitions of both asset and equity interests; real estate contracts and leases; and asset-backed financing.
