Biography

David is a certified public accountant with a distinguished career that includes having served as the chief operating officer at Jackson Lewis and at Bond, Schoeneck & King and as the chief information officer at Sidley Austin. He also held consulting roles at Arthur Andersen, Andersen Consulting, and HBR.

At Barclay Damon, David supports the firm's Management Committee by overseeing all administrative departments within the firm. His responsibilities encompass strategic planning, lateral recruitment, administrative policy review, and feasibility analyses of new markets. Known for his expertise in developing organizational teams and business goals, David actively seeks opportunities to implement innovative programs and processes that drive efficiency, effectiveness, and profitability through the management of critical strategic and tactical initiatives.
